Transformer oil filtration report

Job Ref: -----

Report No

Date:.....

Transformer no-..... Substation no-

Oil CapacityTransformer KVA Voltage..... ..Sr. no

BDV in KV (before starting of filtration).....

Filtration m/c capacity:L/M, temperature setting:deg.C,

IR value HT side with 2500V megger.....M-ohm

IR value LT side with 2500V megger.....M-ohm

Reading:

Sr	Date	Time	Oil temperature	Pressure (hg)	Heater current	BDV	Remarks
1							
2							
3							
4							
5							

If any

Transformer is reedy for charge or not.....
